Summary

I am a computer science student currently pursuing my undergraduate degree. Proficient with web development in HTML, CSS and JavaScript(React). I enjoy solving complex problems, and my hobbies include reading, e-sports, and competitive coding.

Skills and Tools

- HTML, CSS, JavaScript (React)
- Python
- Java, C++
- Photoshop, Figma

Experience

- Working on a startup to form a mobile-first cloud-based website builder
- Worked with a clothing brand to customise their Shopify theme with custom CSS
- Worked with a classmate to create a wallpaper app (50k+ downloads)
- Part of the technical team in school events/fests
- Organized a cybersecurity workshop in school (200+ attendees)
- Participating in competitive coding and hackathons regularly

Achievements

- **Winner:** MakeUC 2020 Hackathon, Best AR Hack
- **Winner:** HackUMBC 2020 Hackathon, Best Connection Hack
- **Finalist:** Brown University Hack At Home 2020', Best Professional Hack
- **Special Mention:** Designathon at Gravitas, VIT Vellore
- **1st Position:** Science Day, DPS Newtown, 2019,20
- **Runners Up:** Exypnos 2018, Codechef Cook Off (Coding)
- **School Scholar:** 2012 - 2020

Education

Delhi Public School Newtown, Science, 2020

National Institute of Technology Durgapur, Computer Science, 2024
